Pink Pineapple

Imagine a remote island with clear oceans, warm weather and pink pineapples! Pink pineapples have been cultivated in South America for centuries. That said, very few people have had the chance to experience it. They are juicier, sweeter and less sour than traditional yellow pineapples. The pink fruit can take as long as two years to grow! Fortunately, you don't have to wait that long to experience this sweet and sour flavor. Foodgod captured the rare and vibrant pink pineapple taste in a ZERO nicotine disposable vape.

Pineberry

Pineberries are actually a hybrid cross between the *Fragaria chiloensis* and the *Fragaria virginiana*. They are naturally occurring through cross-pollination, not a GMO! Pineberries have a strawberry flavor, but with subtle essences of pineapple, pear, and apricot.
